

SUCCESS STORY

GENERALI OSIGURANJE SERBIA

New building requires new solutions

INTRO

Generali Osiguranje Srbija is the second largest insurance company in the national insurance market, where it has been carefully building Generali world since 2006. Since its incorporation (1998) Generali has been recording fast and stable development and today they are the market leader in life and health insurance.

At 2016 Generali Osiguranje moved in to new office space, which was an excellent opportunity for management to develop and implement a new ICT infrastructure adjusted and designed up to their needs.
